

Turning 18

My developmentally disabled child is turning 18...
now what?

You have options!

Estate Planning

Guardian Advocacy

Guardianship

Turning 18 will help guide you through the process of preparing for the future with your developmentally disabled child.

www.turning18.org

Why should I be concerned?

Once your child turns 18, all medical records, academic records and other important information **will no longer be available to you**. It is important to be able to legally protect your child after they become an adult.

How can Turning 18 help?

Turning 18 walks you through **available legal options** for caring for a loved one with developmental disabilities after they turn 18. **Information and instructions** on the three different options: guardianship, guardian advocacy and estate planning **are provided**.

What's my next step?

Once you find the best path for your child, **Turning 18 will direct you to next steps**, such as filling out guardian advocacy forms or seeking advice from a lawyer.

Disclaimer: The Turning 18 website does not constitute legal advice and is provided as-is without any warranty or guarantee. Although an attorney is not required to successfully fill out the guardian advocacy forms on the site, you may wish to seek legal guidance from a licensed attorney.
